

Take advantage of... Your Medicare benefit for diabetic eye disease.

If you have diabetes, Medicare Part B will help pay for your yearly eye exam!

People with diabetes need an eye exam at least once a year to check for diabetic eye disease, which can cause serious vision loss. Finding a problem early means you can get the treatment you need—and it could save your sight.

See your eye doctor for an exam today!

Take advantage of... Your Medicare benefit for glaucoma.

If you're at high risk for glaucoma, Medicare Part B will help pay for your yearly eye exam! You can get help with the cost of an eye exam if you:

- Have diabetes
- Have a family history of glaucoma
- Are African American and age 50 or older
- Are Hispanic/Latino and age 65 or older

Glaucoma often has no warning signs, and it can cause serious vision loss. The good news is that treatment can help protect your sight. **See your eye doctor for an exam today!**
